

Safety Consulting Services

MAEA is available to assist your company by providing the following safety services:

- Conduct mock OSHA safety compliance audits
 - Analyze company's risk, report the findings and offer corrective action
 - Create a safety and compliance program with the latest training modules and compliance information
 - Supplement your existing program with the latest training modules and compliance information
 - Train your management, employees and contractors in the latest safe working concepts
 - Implement a PA Workplace Safety Committee Certification Program to reduce your workers' compensation premiums by 5 percent each year
 - Plan and conduct custom safety and awards meetings
 - Monitor company safety performance and trends and make recommendations for remedial action when necessary
 - Conduct follow-up industrial injury reports
-

MAEA's Experienced Safety Staff

Our experienced consultants will conduct an on-site evaluation of your current conditions, provide proposed solutions and assist in implementation
